Course Content Report

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 101	ANATOMY	3	1	0	3.50	5.00	Compulsory

Course Content

Introduction to anatomy and terminology, skeletal system, joints, skeletal muscles, circulatory system, respiratory system, digestive system, genital system, urinary system, nervous system, sensory organs.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 103	PHYSIOLOGY	3	0	0	3.00	5.00	Compulsory

Course Content

Cell Membrane and Organals, Substance Passage through Membrane and Action Potential, Muscle Physiology, Blood Physiology, Heart and Circulatory Physiology, Respiratory Physiology, Digestive Physiology, Excretory Physiology, Endocrine System Physiology, Reproductive Physiology and Nerve Physiology.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 105	BASIC PHYSICS AND PHYSICS OF SOUND	2	0	0	2.00	2.00	Compulsory

Course Content

Basic physics principles; terminology and methods; processes related to speech and hearing in basic physics; sound and light; measurement and evaluation of the properties of speech in physics; acoustic properties of hearing and speech processes; formation of sound: physics of sound, sound waves, wavelength, propagation speed, frequency, intensity, duration, pitch and height; resonance concepts; distinguishing the direction of the sound; masking; sound insulation; sound recording; noise characteristics.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 107	PSYCHOLOGY	2	0	0	2.00	3.00	Compulsory

Course Content

The basic concepts and theories of psychology, the biological basis of behavior, development, learning, memory, language and thinking, basic impulses and motives, emotions and emotions, intelligence, social, relationships and psychological changes in functional disorders and disability are examined.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 109	INTRODUCTION TO HEARING SPEECH SCIENCE	3	0	0	3.00	4.00	Compulsory

Course Content

Acoustic properties of hearing processes: psychoacoustics of sound, sound waves, frequency, intensity, duration, pressure, pitch and height concepts; hearing science: concepts related to hearing science; hearing apparatus and functioning; physical properties of hearing and examination methods. Informing about the fields of speech science, anatomy and physiology of structures that will affect speech, speech mechanism including respiration, phonation, resonance and articulation Information about the acoustics of speech sounds, including vowels and consonants Information about speech perception and prosody

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 111	INTRODUCTION TO LANGUAGE AND SPEECH DISORDERS	3	0	0	3.00	3.00	Compulsory

Course Content

Overview of Speech and Language Therapy Profession: Its Development in the World and in Turkey, Its History; Job Description of Speech and Language Therapist; Communication, Language and Speech Processes; Clinical and Educational Classification of Communication, Language and Speech Disorders, Causes: Types and characteristics; Language and Speech Disorders: Language disorders, Phonology and articulation disorders, Stuttering, Hearing impaired; Voice Disorders, Neurogenic communication disorders; Collaboration with Different Disciplines: Teamwork, Role of other experts, Task boundaries.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
OD 113	TURKISH I	2	0	0	2.00	2.00	Compulsory

Course Content

Definition of language, its characteristics, relations between language-nation / language-thought and language-culture. Language in the world; the place and importance of Turkish among them and its historical development. Ataturk's language revolution, concept and works. Sounds in Turkish. Phonology of Turkish. Spelling rules and application. Punctuation rules and application. Vocabulary. Productiveness of Turkish.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
OD 115	FOREIGN LANGUAGE I	3	0	0	3.00	4.00	Compulsory

Course Content

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
OD 107	CAREER PLANNING	1	0	0	1.00	2.00	Compulsory

Course Content

The Methods and Tools Used In Professional Job Applications and the Ability to Use Them Most Effectively; Applied Assignments; Relations with Career Centers; Activities That Provide Experience Opportunities to Help Students Develop Their Skills.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
OD 114	TURKISH II	2	0	0	2.00	2.00	Compulsory

Course Content

Word and its meaning, words according to their meanings, different meanings of words, idioms, repetitions, terms. Language errors (about structure and meaning of a word). Ambiguities. Written expression types: [Narratives (novels, stories...), Opinion texts (articles, essays...), Poetry]

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
OD 116	FOREIGN LANGUAGE II	3	0	0	3.00	4.00	Compulsory

Course Content

Reading, listening, speaking and writing activities will be done on subjects of shopping, past events, travel, vacation, weather condition, communication from social networks, experiences and future plans. Related vocabulary, grammar and pronunciation studies will be done.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 100	OCCUPATIONAL HEALTH AND SAFETY	2	0	0	2.00	4.00	Compulsory

Course Content

Work accidents, occupational diseases, law and social order rules, personal protective equipment, ergonomics, Fire and fire protection, first aid.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 102	NEUROANATOMY AND NEUROPHYSIOLOGY OF SPEECH AND LANGUAGE	3	0	0	3.00	4.00	Compulsory

Course Content

Basic neuroanatomy and terminology, basic neurophysiology, neuroanatomy of hearing, neurophysiology of hearing, neuroanatomy of speech, neurophysiology of speech, neural control of laryngeal and supralaryngeal sound system, central functions of speech act, speech function and neural relations, asymmetry and lateralization functions of human brain, cranial nerves, central system pathologies and their effects on language and speech, peripheral and central pathologies; includes topics.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 104	BASIC AUDIOLogy	2	0	0	2.00	4.00	Compulsory

Course Content

Development and future of hearing science, hearing system anatomy, auditory system physiology, sound physics and acoustic concepts, psychoacoustic concepts, acoustic properties of human voice, peripheral and central evaluation of hearing, causes of hearing loss, psycho-social effects of hearing loss, hearing aid technology fundamentals of auditory rehabilitation; includes topics.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 106	LABORATORY PRACTICE IN LANGUAGE-SPEECH DISORDERS	0	2	0	1.00	4.00	Compulsory

Course Content

Basic application systems, hardware and equipment used in language and speech disorders. It includes the clinical follow-up protocol with the programs. To conduct clinical and experimental studies individually or in groups; It includes teaching how to use laboratory facilities in the process of diagnosis, therapy and evaluation of speech and language disorders.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 108	LANGUAGE DEVELOPMENT AND THEORIES	2	0	0	2.00	4.00	Compulsory

Course Content

Language development and its stages; views on language acquisition; physiological basis of language and speech; Concept development by age, approaches to concept development, classification of concepts; the place, organization and arrangement of concepts in the semantic element of language; The relationship between concept and language development includes the components of language (Phonology, Morphology, Syntax, Semantics, Pragmatics).

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 110	ACOUSTIC PHONETICS	2	0	0	2.00	4.00	Compulsory

Course Content

It includes the basic concepts of speech science, pioneer scientists who have worked in the field of speech science, types of sound waves, respiration, phonation, articulation, resonance, acoustic measurements, acoustic properties of vowels and consonants, speech production and perception.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 201	HISTOLOGY/ EMBRYOLOGY FOR SPEECH AND LANGUAGE THERAPISTS	2	0	0	2.00	4.00	Compulsory

Course Content

This course; Includes topics such as female reproductive cells, male reproductive cells, spermatogenesis, oogenesis, ovulation, 2nd week of development, 3rd week of development, embryonic and fetal period, neurulation, development of somites, pharyngeal complex I, pharyngeal complex II, head and neck development.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 203	CLINICAL LINGUISTICS	2	0	0	2.00	2.00	Compulsory

Course Content

Introduction to clinical linguistics, damage to components of language (syntactic, morphological, phonological and usageological), language structure in normal language development, language structure and evaluation in developmental and acquired language disorders.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 205	CLINICAL ASSESSMENT IN SPEECH AND LANGUAGE THERAPY	2	0	0	2.00	4.00	Compulsory

Course Content

- Clinical applications - Scanning principles - Interview techniques - Medical history - Formal assessments - Data collection in the natural environment - Informal assessment methods - Interpretation of the findings

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 207	EAR NOSE THROAT DISEASES AND CRANIOFACIAL ANOMALIES	2	0	0	2.00	4.00	Compulsory

Course Content

Define ENT and hearing, speech and sound.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 209	CHILD HEALTH AND NEUROLOGY	2	0	0	2.00	3.00	Compulsory

Course Content

This course includes normal brain development, developmental stages; normal neuromotor and mental development, risk factors causing disability and risky infant follow-up, language and speech delay in children and its possible causes, mental retardation in terms of pediatric neurology, childhood nervous system infections, neurological examination and tests, diagnosis and follow-up of cerebral palsy, convulsions, epilepsy, febrile seizure definition and first aid, neurometabolic / neurodegenerative / neuromuscular diseases and syndromes, neurological problems with autistic findings, attention deficit hyperactivity disorder and its effects on language development, physical child abuse, teamwork in neurological diseases, hearing loss, related pathology, central hearing loss and related pathologies, evaluation of hearing loss, objective tests used to measure hearing, basic audiological examinations in adults, audiological examinations in children, hearing aids, rehabilitation audiology, discussion of hearing loss in children and adults with case examples.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 211	APPLIED BEHAVIOR ANALYSIS	3	0	0	3.00	4.00	Compulsory

Course Content

Adequate and insufficient explanations of given behavior explanation examples. Experimental behavior analysis and applied behavior analysis. Features of applied behavior analysis. Behavior analysis. Positive reinforcement, negative reinforcement, Type I punishment, Type II punishment, differential reinforcement. Interview form development and application and anecdotal recording. Recording behaviors according to their characteristics. Processing processes and effectiveness applied with single-subject designs.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 225	BODY LANGUAGE AND DICTION FOR SPEECH AND LANGUAGE THERAPISTS	2	0	0	2.00	3.00	Compulsory

Course Content

Introduction of breathing, sound, choking devices Exercises for associating breathing, sound, choking devices Turkish language rules Turkish spoken and written language distinctions Performing exercises on the association of breathing, voice, articulation devices and speech rules on various texts body language exercises Cultural body language codes Universal body language codes

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 213	KINESIOLOGY FOR SPEECH AND LANGUAGE THERAPISTS	2	0	0	2.00	3.00	Compulsory

Course Content

Explaining the basic concepts of kinesiology.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 202	SPEECH AND PHONOLOGY LABORATORY	2	2	0	3.00	4.00	Compulsory

Course Content

This course; Week 1: Phonetic science; basic concepts, 2. Week: Organs in speech and their functions, 3. Week: Classification and distinctive features of speech sounds,4. Week: Vocabulary of Turkish: consonants and vowels; phonemes, 5. Week: Consonants and vowels of Turkish: allophones,6. Week: Introduction to phonetic analysis: International Phonetic Alphabet (IPA),7. Week: The purposes of using the international phonetic alphabet,8. Week: Consonants in world languages, 9. Week: Vowels in world languages, 10. Week: Conversation in context: Over-the-top features,11. Week: Speaking in Context: Coarticulation,12. Week: IPA-Phonetic Transliteration applications,13. Week: Acoustic examination of explosive sounds with PRAAT program,14. Week: Knows the usage purposes of evaluation tools such as ultrasound and EPG that show the exact movement of the vocal tracts; includes topics.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 204	CLINICAL PHONOLOGY	3	0	0	3.00	4.00	Compulsory

Course Content

To reveal the distinction between phonetics and phonology by examining the basic concepts of phonology, to know the aims and application area of clinical phonology; The aim of the study is to analyze the speech data obtained from individuals phonologically, to extract the phonetic and phonemic inventories of individuals from these data, to evaluate the individuals with speech sound disorders according to these norms by examining the phonological developmental stages of individuals with normal development, and to find information about phonological operations from the speech samples of the cases.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 206	AUDIOLOGY REHABILITATION AND APPLICATIONS	2	2	0	3.00	4.00	Compulsory

Course Content

Auditory rehabilitation after hearing loss

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 208	CHILDHOOD LANGUAGE DISORDERS	2	0	0	2.00	3.00	Compulsory

Course Content

Normal and abnormal language development patterns, differential diagnosis Formal and informal language assessment methods in children aged 0-5 Principles of therapy in children aged 0-5 with developmental language disorders Evidence-based therapy practices

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 210	RESEARCH METHODOLOGY IN HEALTH SCIENCES	2	0	0	2.00	2.00	Compulsory

Course Content

Discussing the concepts of science and scientific knowledge, Discussing the concept of health science and revealing whether it differs from science in general, Explaining the concepts of theory, paradigm, technique, method, assumption, hypothesis, variable, Teaching the writing rules of scientific research report, Teaching the use of SPSS program, Film notation: "Kitchen Stories",App-Consultation.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 212	GAME AND CHILD	2	1	0	2.50	4.00	Compulsory

Course Content

Game models, game and language development

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 224	LEARNING DISORDERS	2	0	0	2.00	3.00	Compulsory

Course Content

Physical disabilities, visually impaired, hearing impaired, speech impaired, Down syndrome, attention deficit and hyperactivity, intellectual disabilities, fenüktenuria, enerosis, autism, Rett syndrome, asperger syndrome, frigal x syndrome.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 216	EMOTIONAL, BEHAVIORAL AND ADAPTIVE DISORDERS	2	0	0	2.00	3.00	Compulsory

Course Content

Definition and importance of mental health, historical development of mental health, theories about mental health, characteristics of individuals with and without mental health, diagnosis and treatment of behavioral and adjustment problems in children, effects of special situations in the family on the mental health of the child.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 301	SPEECH SOUND DISORDERS	3	0	0	3.00	4.00	Compulsory

Course Content

Speech Sound Disorders: Definitions and terms; Articulation and Phonology Relation; Biological and Neurological Components Required for Speech Sound Production; Classification of Speech Voice Disorders; Characteristics and Etiology of Speech Voice Disorders; Effects of Speech Voice Disorders on Academic and Social Life; Evaluation of Speech Sound Disorders; Therapy Approaches in Speech Sound Disorders; Applied Studies.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 303	ACQUIRED LANGUAGE AND COGNITIVE COMMUNICATION DISORDERS	2	2	0	3.00	4.00	Compulsory

Course Content

Edinilmiş dil bozuklıklarındaki değerlendirme yaklaşımı. Edinilmiş dil bozuklıklarındaki tedavi etkiliği. Afazide uygulanan terapi yaklaşımı. Edinilmiş dil bozuklarında alternatif ve destekleyici iletişim yöntemleri

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 305	FLUENCY DISORDERS	2	2	0	3.00	4.00	Compulsory

Course Content

Evaluation of Fluency Disorders: Objectives, Key parameters, Procedures; Evaluation of Preschool Child; Evaluation of School Age Child; Evaluation of Adolescents and Adults; Formal and Informal Evaluation in Fluency Disorders; The topics of Differential Diagnosis of Stuttering and Rapid Distorted Speech are covered. Therapy of Fluency Disorders: Shaping fluency, Change in stuttering, Lidcombe therapy program, Application of different approaches together; Therapeutic Practices are discussed.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 307	INTRODUCTION TO SWALLOWING AND FEEDING DISORDERS	3	0	0	3.00	4.00	Compulsory

Course Content

This course includes introduction and epidemiology of swallowing disorders, anatomy and function of swallowing mechanism, swallowing disorders resulting from neurologic disorders and other diseases.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 309	INTRODUCTION TO VOICE DISORDERS	2	0	0	2.00	4.00	Compulsory

Course Content

Anatomy and physiology of healthy voice production mechanism; Etiology of organic, functional and neurogenic voice disorders, risk factors leading to voice disorders, characteristics of healthy and distorted voice will be discussed.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 313	ASSESSMENT AND THERAPY OF CHILDHOOD LANGUAGE DISORDERS	2	2	0	3.00	4.00	Compulsory

Course Content

This course; Developmental disability; communication and language disorders, Screening and evaluation principles and methods; data collection techniques: interview, observation; diagnostic tests; teamwork, Language disorders intervention approaches: Clinician-directed approaches, Language disorders intervention approaches: Child-centered approaches, Developmental and acquired language disorders (eg, children with traumatic brain injury); language features and differential diagnosis, Bilingualism and language disorders, Delayed language and speech; Differential diagnosis, Communication/language disorder characteristics and differential diagnosis in autistic people, Language characteristics and differential diagnosis in learning disorders, Differential diagnosis in specific language disorders and comorbidities, Early intervention methods and environments; family studies, Early intervention program preparation, Clinical samples and observation, Clinical samples and observation; includes topics.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 302	ASSESSMENT AND THERAPY OF NEUROGENIC MOTOR SPEECH DISORDERS	2	2	0	3.00	6.00	Compulsory

Course Content

This course; Evaluation and decision-making process, assessment tools, test types, Evaluation purposes, evaluating understanding of the content, form and use of the language, Evaluating the production of the content, form and use of the language, Use, scoring and interpretation of Turkish Aphasia language assessment tests, Use of Turkish Aphasia language assessment tests, scoring and interpretation, therapy approaches in neurogenic acquired language disorders, stimulus approach, stimulus preparation in stimulus approach, thematic language stimulation and semantic features analysis, HELPSS and RET, Visual Movement Therapy, Therapy approaches for Global Aphasia; includes topics.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 304	ASSESSMENT AND THERAPY OF VOICE DISORDERS	2	2	0	3.00	5.00	Compulsory

Course Content

Evaluation in Voice Disorders: Case history taking, Instrumental and objective sound evaluation methods, Evaluation of the respiratory system, Aerodynamic evaluation, Computer aided acoustic sound analysis systems, Auditory-perceptual and subjective sound evaluation methods, Laryngeal imaging; Therapy Methods in Voice Disorders: Hygienic voice therapy, Symptomatic voice therapy, Psychogenic voice therapy, Physiological voice therapy; Holistic Approach to Sound Therapy; Sound Therapy Applications.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 306	ASSESSMENT AND THERAPY OF CRANIOFACIAL ANOMALIES	2	2	0	3.00	5.00	Compulsory

Course Content

Anatomy and physiology, etiology in head-facial anomalies Characteristics, evaluation, differential diagnosis and treatment approaches of language and speech disorders that may occur due to atypical anatomical structure interdisciplinary teamwork

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 308	ASSESSMENT AND THERAPY OF CHEWING AND SWALLOWING DISORDERS	2	2	0	3.00	5.00	Compulsory

Course Content

This course includes bedside and instrumental evaluation of swallowing disorders and selection of therapy method for the disorder.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 312	SCIENTIFIC MEDICAL AND PROFESSIONAL ETHICS	2	0	0	2.00	3.00	Compulsory

Course Content

Science and Ethics: Definition; Separation of Science and Profession; Ethics as a Field of Philosophy; Parallelism of Ethics of Being Human and Science and Professional Ethics; General Ethical Principles and Application Areas; Scientific Research Ethics: Basic principles of research ethics; Ethical Evaluations in Scientific Research; Publication Ethics in Scientific Knowledge Production; Professional Ethics: Importance of professional ethics, Effects of professional ethics on professional life; Medical Ethics and Principles; Ethical Rules for Speech and Language Therapy; Values for Speech and Language Therapy.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 401	FAMILY COUNSELING IN LANGUAGE AND SPEECH DISORDERS	2	0	0	2.00	4.00	Compulsory

Course Content

Definition and Scope of Consultancy and Support Services; Counseling the Families and Teachers of Individuals with Communication Problems: Family education; Effective Counseling Skills in Counseling Services in Speech and Language Therapy; Counseling Approaches; Discussion of Solution Suggestions for the Problems Frequently Involved in the Consultation Process; Differentiating Features of Counseling Services for Developmental and Acquired Language and Speech Disorders.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 403	ELECTROTHERAPY FOR LANGUAGE AND SPEECH DISORDERS	2	0	0	2.00	2.00	Compulsory

Course Content

This course; Medulla Spinalis Functions, Structure and functions of the cell membrane, passage through the cell membrane, osmosis and diffusion. Action potential and ion channels, Smooth muscle physiology, Striated muscle physiology, Neuromuscular junction and muscle motor unit properties, Somatic senses: pain and temperature ,Somatic senses: touch,Central nervous system physiology, Respiratory and Digestive system physiology,Agonist and antagonist working facial muscles, Agonist and antagonist working head and neck muscles, TENS, NMES, EEG, EMG,Student presentations; includes topics.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 405	CLINICAL APPLICATION I	0	16	0	8.00	12.00	Compulsory

Course Content

Developing and Implementing Checklists, Assessment Tools, Test Sets, Therapy Tools for Use with Cases in Assessment and Therapy for Speech and Language Disorders; Gaining Knowledge on the Use of Technology in Speech and Language Therapy; Attending Seminars of Experts in Related Fields; Gaining Knowledge about Multidisciplinary Working Methods.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 407	BIOSTATISTICAL	2	0	0	2.00	2.00	Compulsory

Course Content

This course covers the main phases of statistical methodology, statistics in medicine and health sciences, data collection and data organization and presentation, descriptive statistical analysis, measures of central tendency, means: analytical means, non-analytical means, variability and measures, skewness and measures, descriptive statistics: problem solving, normal distribution and its properties, standard normal distribution, applications of normal distribution, introduction to inductive statistical analysis: sampling and sampling techniques: simple random sampling: estimation of the size of the sample, estimation of the mean of the sample, estimation of the population ratio, introduction to statistical relationship analysis, research stages and ethical issues in research.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 409	SEMINAR I	2	0	0	2.00	2.00	Compulsory

Course Content

Seminar programs for diagnosis and intervention for communication, language, speech, voice and swallowing disorders

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
OD 111	ATATURK PRINCIPLES AND HISTORY OF TURKISH REVOLUTION I	2	0	0	2.00	2.00	Compulsory

Course Content

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
OD 112	ATATURK PRINCIPLES AND HISTORY OF TURKISH REVOLUTION II	2	0	0	2.00	2.00	Compulsory

Course Content

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 402	CLINICAL DECISION MAKING IN LANGUAGE AND SPEECH DISORDERS (APPLY FOR PROFICIENCY EXAM)	2	2	0	3.00	6.00	Compulsory

Course Content

Applications for all areas of speech and language therapy

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 404	CLINICAL APPLICATION II	0	16	0	8.00	12.00	Compulsory

Course Content

Observation of Normally Developing Children in Kindergartens, Kindergartens, Orphanages; Developing and Implementing Checklists, Assessment Tools, Test Sets, Therapy Tools for Use with Cases in Assessment and Therapy for Speech and Language Disorders; Gaining Knowledge on the Use of Technology in Speech and Language Therapy; Attending Seminars of Experts in Related Fields. Gaining Knowledge about Multidisciplinary Working Methods.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 406	AUGMENTATIVE AND ALTERNATIVE COMMUNICATION	2	0	0	2.00	2.00	Compulsory

Course Content

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK 408	SEMINAR II	2	0	0	2.00	2.00	Compulsory

Course Content

Seminar programs for diagnosis and intervention for communication, language, speech, voice and swallowing disorders

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
DK GS I	GENEL SEÇMELİ I	2	0	0	2.00	3.00	

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 001	RESEARCH METHODS	2	0	0	2.00	3.00	Seçmeli

Course Content

This course includes information about scientific research, research process, identification of research problem, literature review, data collection methods, creating hypothesis, universe, sample, analysis methods and research report.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 003	TECHNICAL COMMUNICATION	2	0	0	2.00	3.00	Seçmeli

Course Content

This course includes information about scientific research, research process, identification of research problem, literature review, data collection methods, creating hypothesis, universe, sample, analysis methods and research report.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 005	STRESS AND TIME MANAGEMENT	2	0	0	2.00	3.00	Seçmeli

Course Content

This lesson; historical development of occupational health and safety, occupational accident and occupational diseases and costs, the concept of occupational safety, the importance of occupational safety studies in terms of workforce efficiency, basic factors in occupational safety, sources of hazards, the concept of occupational health, psychosocial risk factors, ILO conventions, events that disrupt security Includes fire, earthquake and flood issues.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 009	PUBLIC ADMINISTRATION	2	0	0	2.00	3.00	Seçmeli

Course Content

The nature of public administration, Central government organizations, Local administrations; Subjects such as special provincial administration and the concept of bureaucracy constitute the content of this course.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 011	VOLUNTEERING STUDIES	2	0	0	2.00	3.00	Seçmeli

Course Content

The content of the course; corporate social responsibility concept and development, social responsibility areas, social responsibility plan, business ethics and social responsibility relationship, the impact of social responsibility practices on corporate success.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 015	CREATIVE DRAMA AND IMPROVISATION	2	0	0	2.00	3.00	Seçmeli

Course Content

This course includes the sociological and psychological dimensions of drama, history of drama and its applications in education, drama in education, role play and improvisation, and the relationship of drama with creativity and communication concepts, drama practices and how to use drama activities in teaching different courses.

Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 017	HUMAN RESOURCES MANAGEMENT	2	0	0	2.00	3.00	Seçmeli
Course Content							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 021	BUSINESS LAW	2	0	0	2.00	3.00	Seçmeli
Course Content							
Concept of law, functions of law, differences of legal rules from other legal rules regulating social life, types of sanctions, branches of law, sources of labor law, individual labor law, collective (collective) labor law.							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 023	ENTERPRISE RESOURCE PLANNING	2	0	0	2.00	3.00	Seçmeli
Course Content							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 025	HUMAN RIGHTS	2	0	0	2.00	3.00	Seçmeli
Course Content							
Historical Development of Human Rights, European Convention on Human Rights and International Fundamental Documents on the Protection of Human Rights, European Court of Human Rights and its Case Laws, Fundamental Rights and Freedoms, Generational Rights.							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 027	ENTREPRENEURSHIP	2	0	0	2.00	3.00	Seçmeli
Course Content							
Basic terms in entrepreneurship, preparing a business plan, basics of marketing research, preparing a marketing plan, production plan, organization plan, financial plans and financial statement.							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 031	HISTORY OF SCIENCE	2	0	0	2.00	3.00	Seçmeli
Course Content							
Science. Science from the perspective of civilizations: Nile and Anatolian civilizations; Asian, Chinese, Indian, Roman, Greek and Islamic civilizations. European, American, Asian, Far East, Middle-Eastern civilizations. Turkish World History of Science and Technology; History of glass, textile and ceramic technology; history of iron-copper and casting technology.							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 033	SOCIAL PSYCHOLOGY	2	0	0	2.00	3.00	Seçmeli
Course Content							
Psychology science, fields of psychology, the place of social psychology in psychology, social psychology field and methods, human nature, socialization, social perception, attitudes and change, social impact, individual behavior in the group, interpersonal attraction and love.							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 035	COMMUNICATION	2	0	0	2.00	3.00	Seçmeli
Course Content							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 037	FINANCIAL LITERACY	2	0	0	2.00	3.00	Seçmeli
Course Content							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 039	SIGN LANGUAGE	2	0	0	2.00	3.00	Seçmeli
Course Content							
Course Unit Code	Course Name	T	U	L	Credit	ECTS	Type
GS 041	DISASTER AND CRISIS MANAGEMENT	2	0	0	2.00	3.00	Seçmeli

Course Content

The principles of disaster and crisis management, concepts, definitions and standards, elements of the emergency plans and emergency management, emergency situations, the communication, the importance of evacuation, examination of mitigation-preparation-intervention improvement phase, the next desk applications; The objective of crisis management, identification of the crisis, characteristics, stages, aspects of crisis management, history and time, disaster management and crisis management as well as providing information on legislative issues
